

Perkins V Career Pathways Project

Teacher Rollout Workshop
May 20, 2021

Objectives:

Develop

a shared concept of Perkins V changes and requirements

Understand

key vocabulary terms related to CBE and Perkins V

Identify

approved and supplemental credentials

Explain

new curriculum documents and support materials

Perkins V Career Pathways Grant

PERKINS V TIMELINE

PY2 is Perkins V implementation target for:

12.0400	46.0000	47.0604	52.0299
13.0000	46.0301	51.0000	00.0000

Postsecondary Recognized Credentials

Industry-recognized
certification

Educational certificate

License

Educational degree

Apprenticeship Completion
Certificate

Aligned to State Goals

Goal: Increase the number of working-age adults with a skill certificate or college degree from 45% today to 60% by 2030.

Goal: Expand secondary learning opportunities for all students

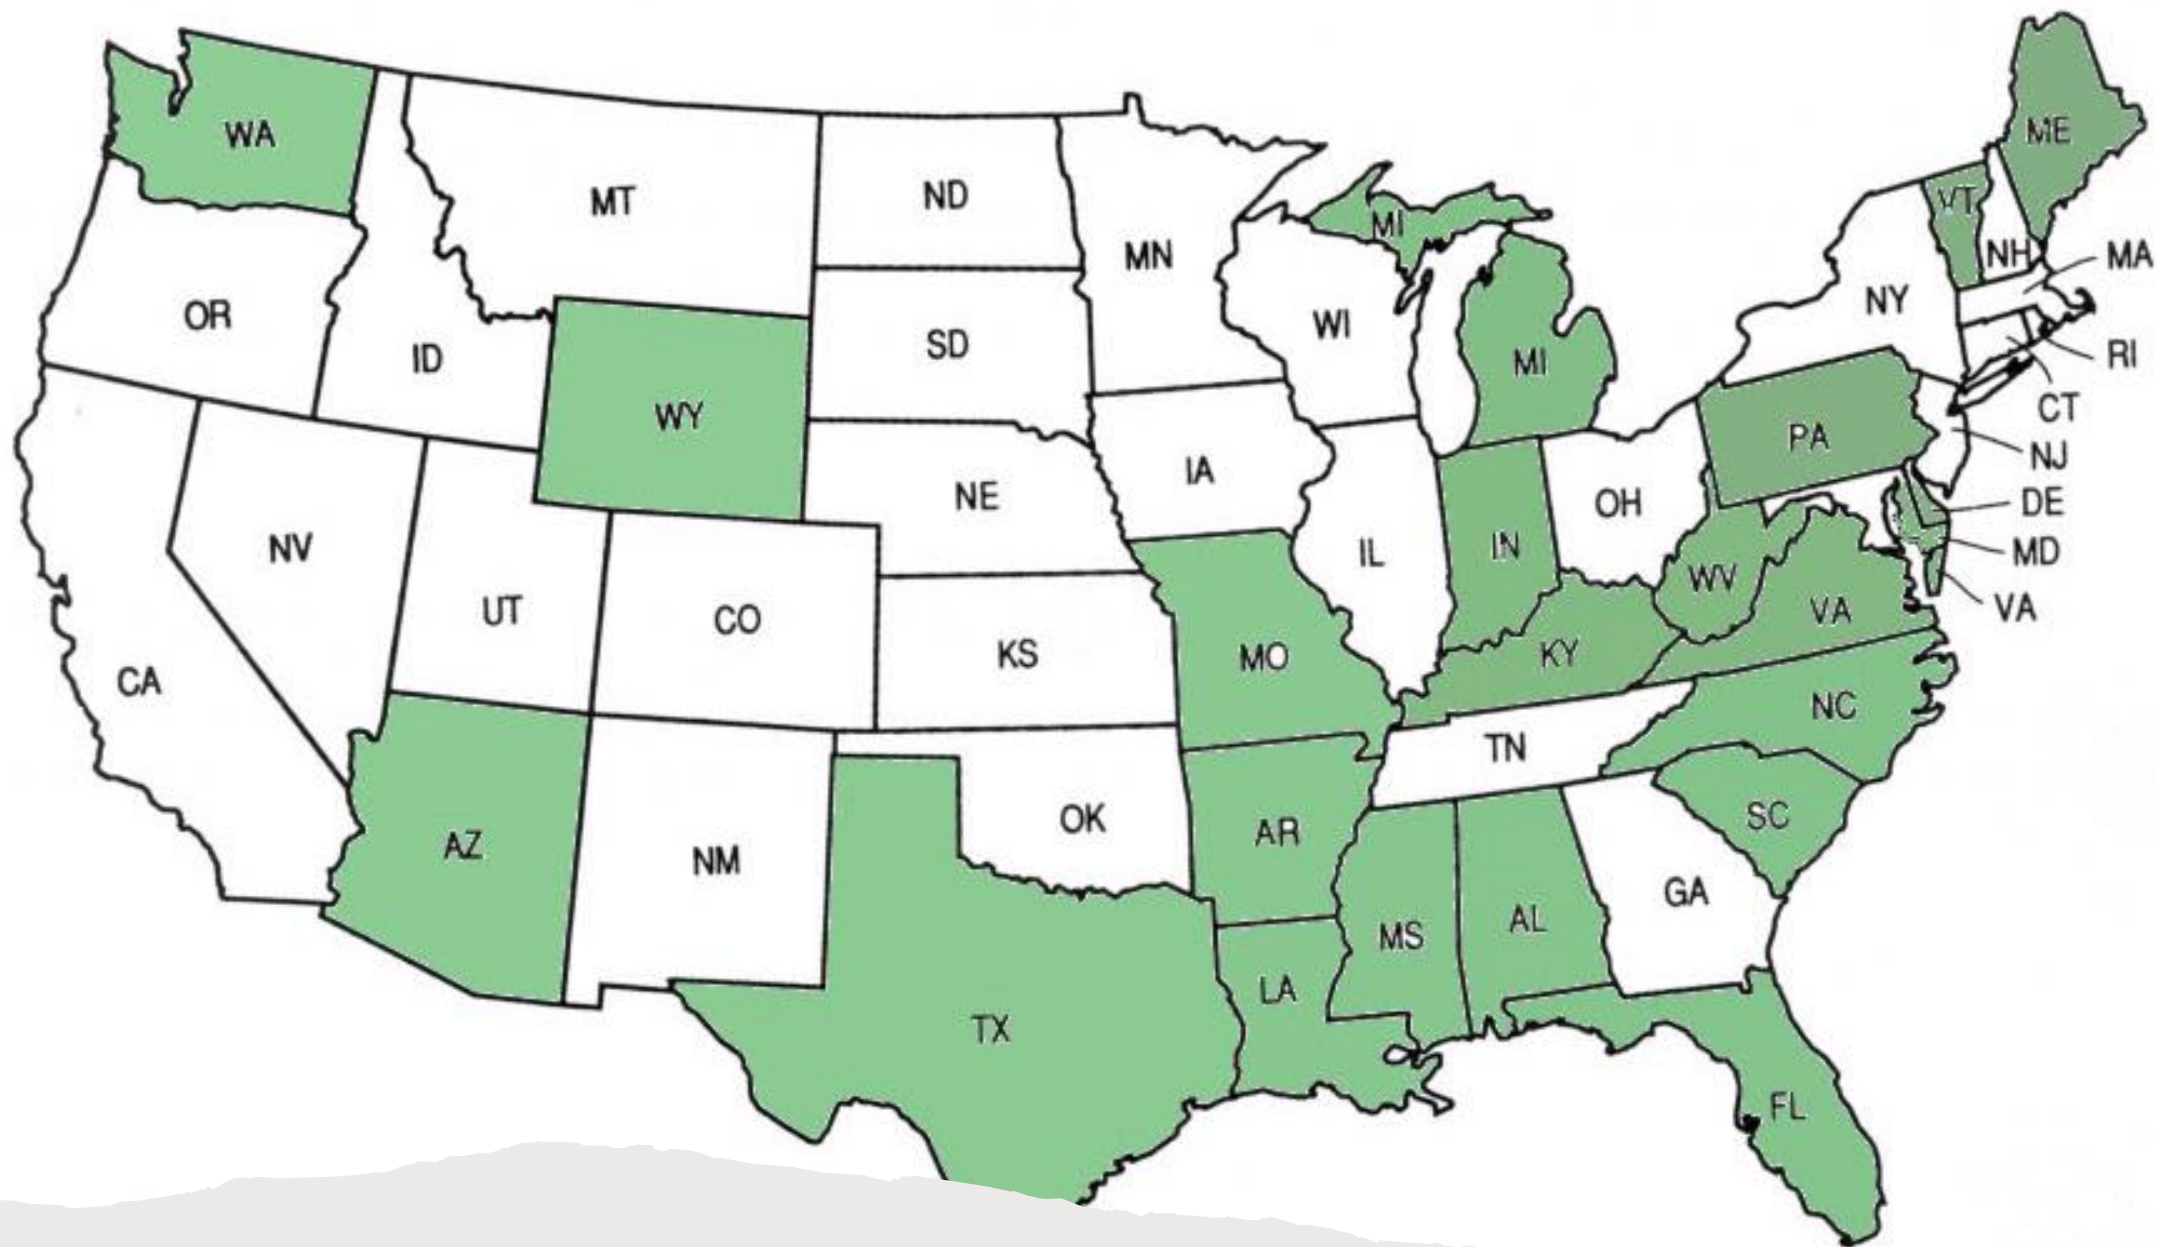

Goal: Increase the percentage of all students who graduate from high school

Goal: Increase the percentage of adults with a postsecondary credential

AK

HI

Industry-Recognized Credential (IRC)

- ✓ Related to a particular occupation
- ✓ Recognized in labor market
- ✓ Portable across state borders
- ✓ Assess student skills

Supplemental Credentials

2019 – 2020 Grant Projects

Five CIP codes approved for the current grant year:

51.0000	Health/Therapeutic Services
46.0301	Electric/Power Trans Transmitter
46.0000	Construction Trades
47.0604	Automotive Technician
52.0299	Business Administration, Management & Operation

Two CIP areas participating in parallel project work:

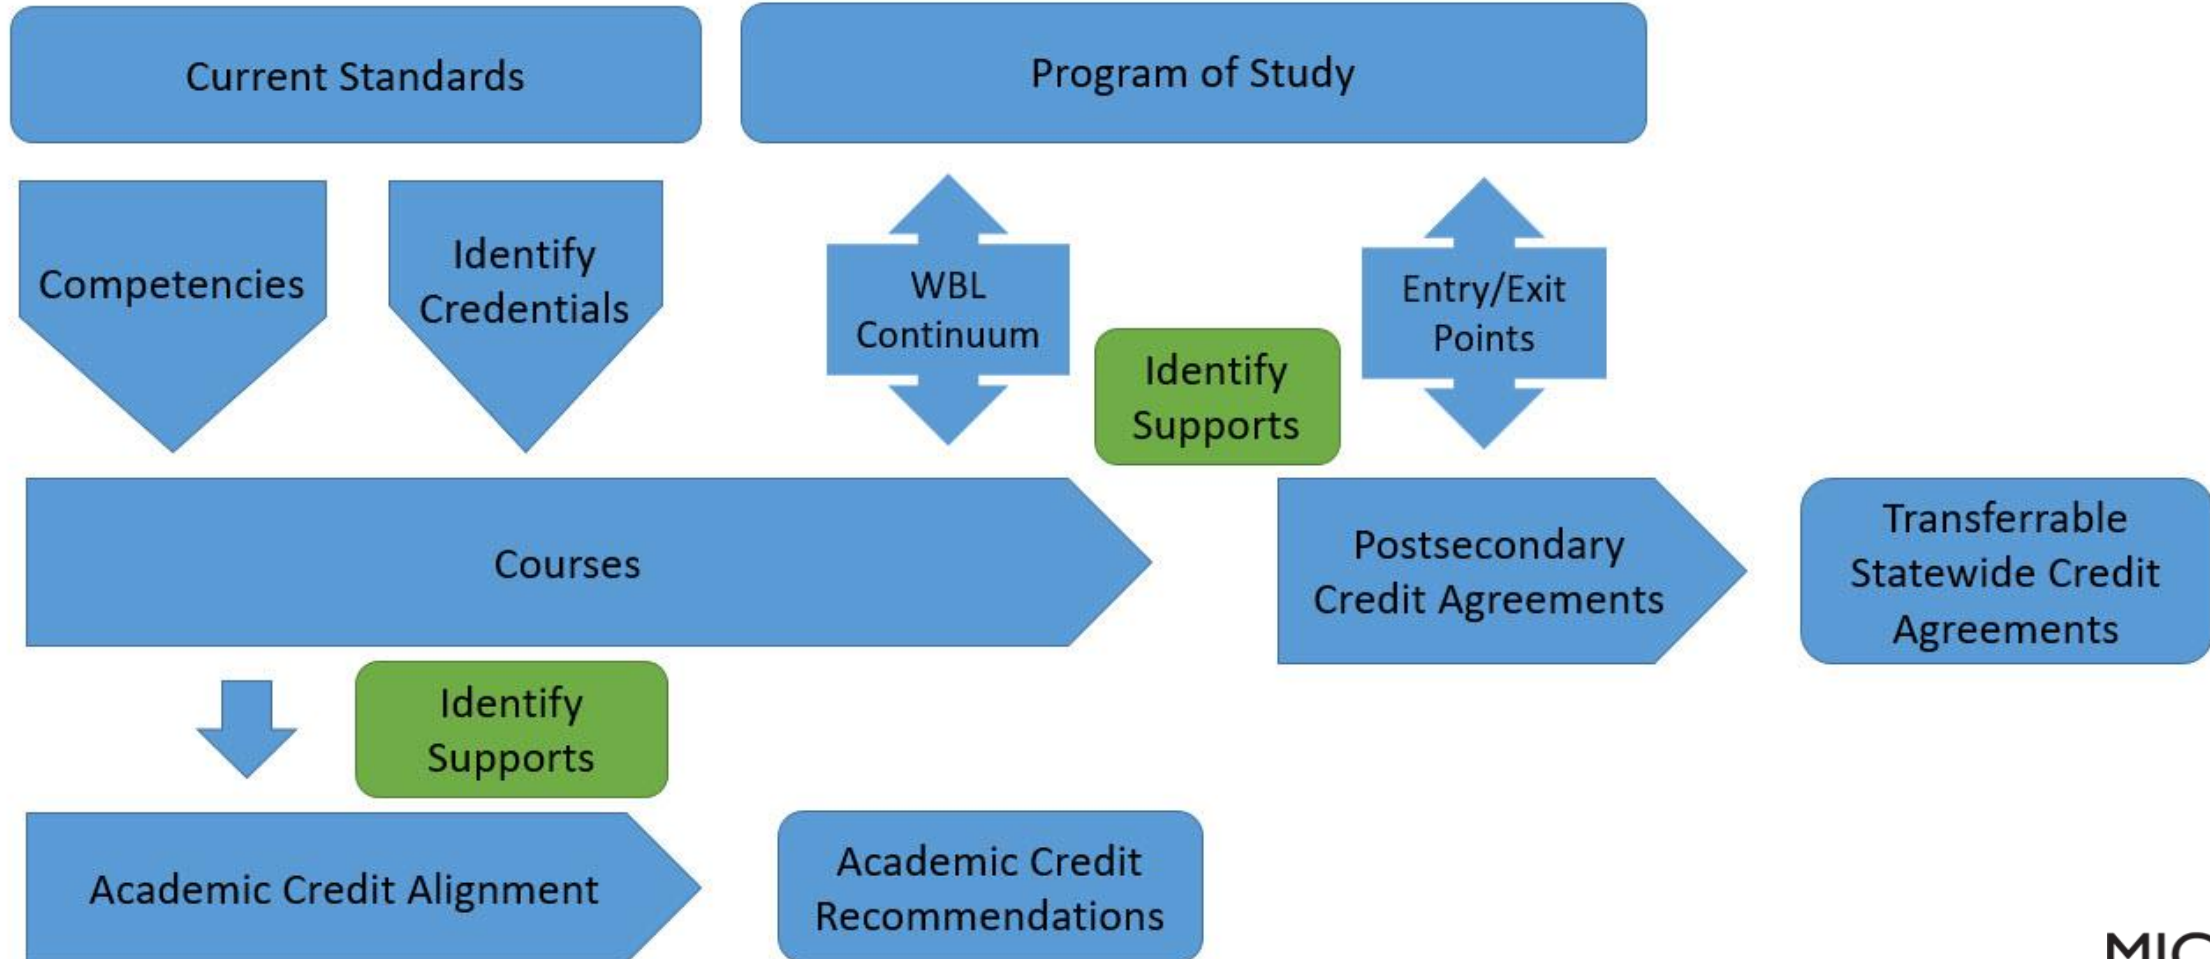

12.0400	Cosmetology
13.0000	Education, General

Questions on Credentials?

Standards to Competencies

competence [kom-pi-tuh ns]

noun

- 1 the quality of being **competent**; adequacy; possession of required skill, knowledge, qualification, or capacity:

He hired her because of her competence as an accountant.

Synonyms for *competence*

appropriateness

capability

capacity

competency

expertise

fitness

know-how

proficiency

qualification

savvy

skill

suitability

adequacy

makings

might

moxie

cutting it

cutting the mustard

hacking it

making the grade

qualifiedness

the goods

the right stuff

what it takes

■ MOST RELEVANT

Student	Achievement	Other Relevant Details	Averaging all Grade Entries: Result
Mariela	"C" achievement throughout course		Final Grade = C
Christian	"A" achievement throughout course	Chronic late homework & some 0s 	Final Grade = C
Tatiana	"A" on tests, but...	Struggles to learn until then (homework) 	Final Grade = C
Sayed	"F" achievement early	"A" achievement by the end 	Final Grade = C
Oscar	Ds and Fs on tests, but ...	Hard worker, great kid, homework on time, extra credit 	Final Grade = C

Credentials vs. Competencies

A credential is the validation of a **set** of competencies.

CCTC
Common Career Technical Core

The Career Ready Practices

ACT AS A RESPONSIBLE AND CONTRIBUTING CITIZEN AND EMPLOYEE.

Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.

APPLY APPROPRIATE ACADEMIC AND TECHNICAL SKILLS.

Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.

Stackable Credentials &
Certifications

Big Ideas

Employ safe work practices
and follow health and safety
policies and procedures to
prevent injury and illness.

CPR Certification
First Aid Certification
AED Certification

Formative and
Summative Feedback

Performance Indicators

Demonstrate and apply the use of PPE.
Demonstrate standard precautions.
Demonstrate principles of body mechanics during patient care.
Demonstrate personal safety procedures based on OSHA and CDC regulations.

Handwashing, use of PPE, demonstration
ergonomics, patient transfer

Formative Feedback

Content Standards

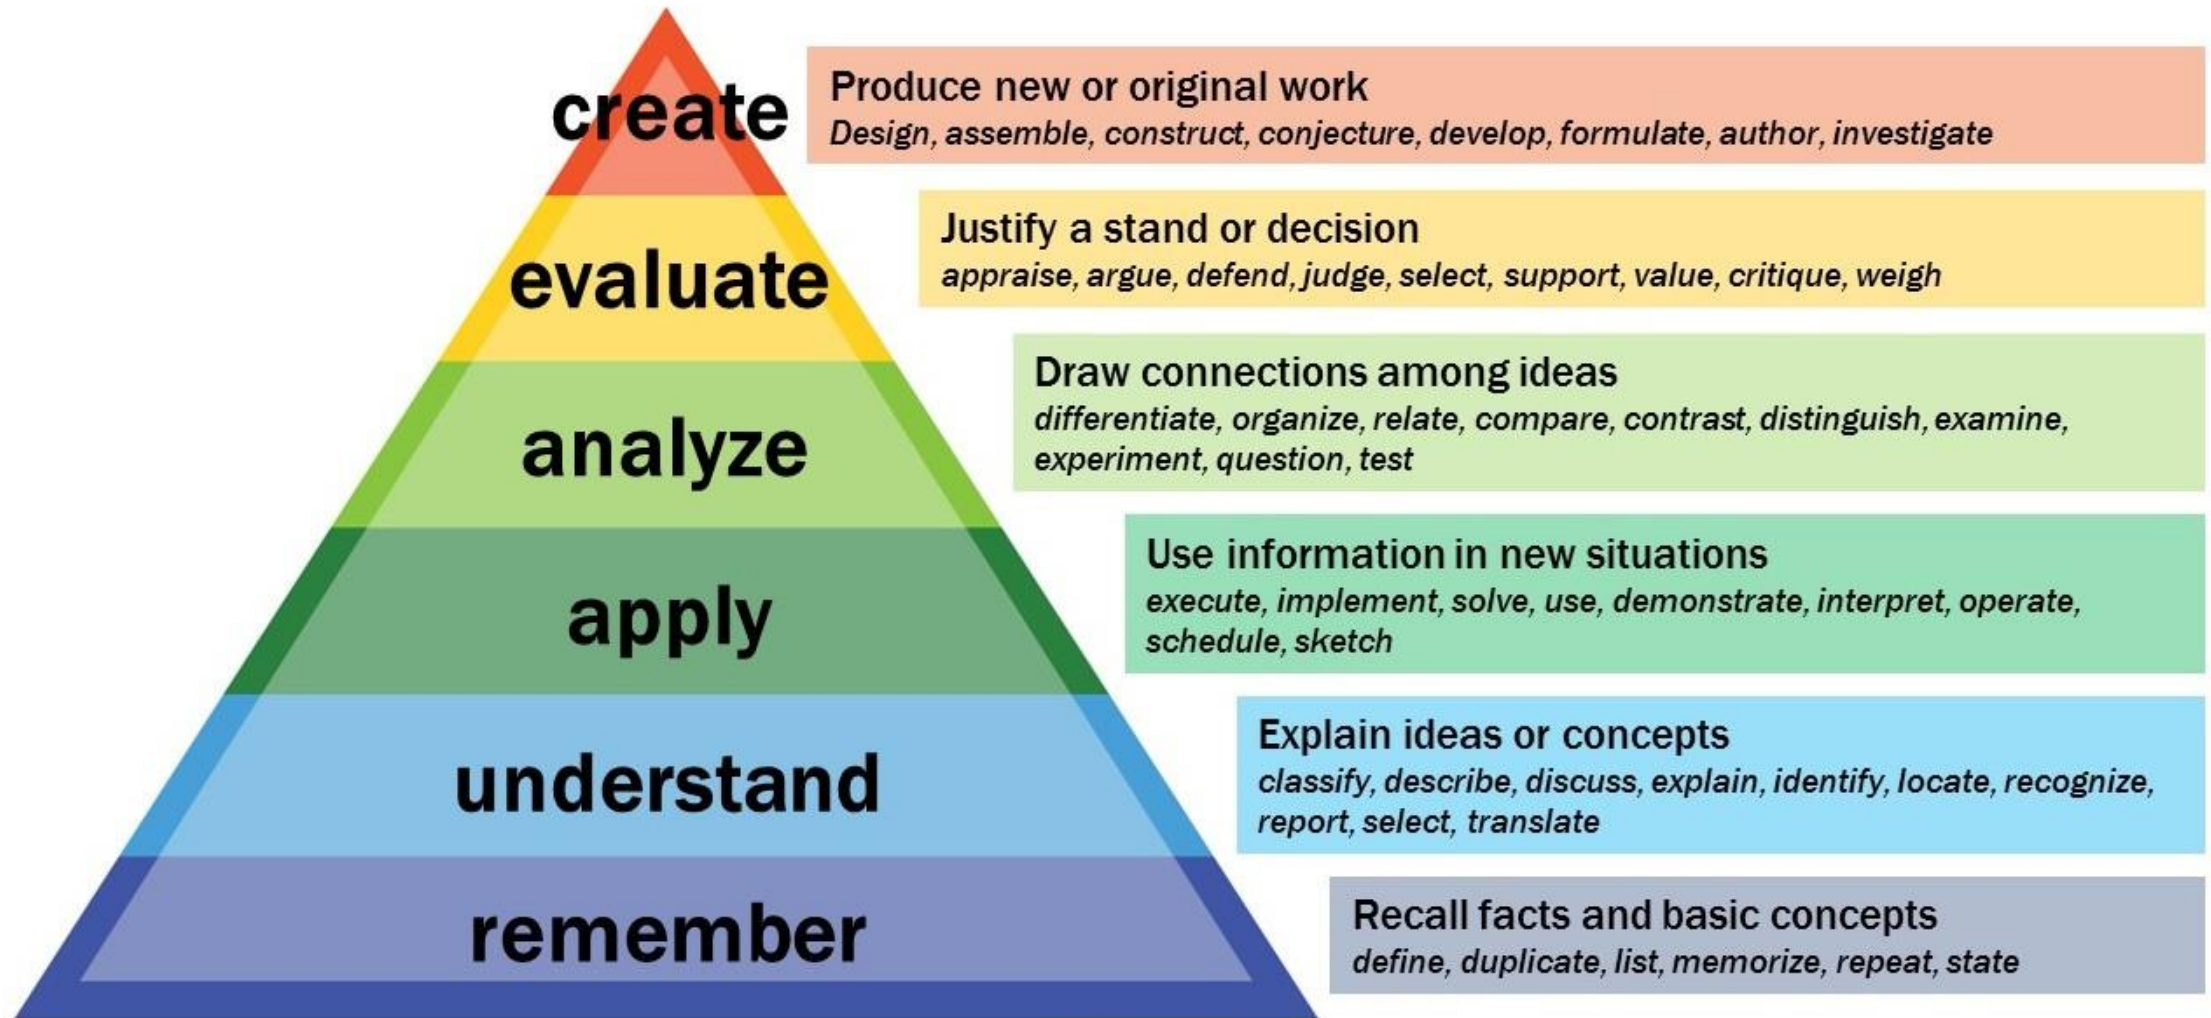

Describe characteristics of microorganisms.
Explain principles of infection transmission.
Differentiate methods of controlling the spread and growth of pathogens.
Identify existing and potential hazards to clients, co-workers and self.
Recognize the chain of infection.
Explain infection control practices and procedures.

Completion of Biology and
chemistry, spread of
infection/infection control, etc.

Performance Indicators

Demonstrate an understanding and use of sanitation, safety, and universal precautions for both the cosmetologist and client.

Cosmetology
License

- ✓ Apply towel to drape client
- ✓ Apply protective cream

Manicuring
License

- ✓ Explain procedures to patient
- ✓ Role play diabetic education of a patient

Esthetician
License

- ✓ Explain an issue that requires pharmacist intervention to client
- ✓ Correctly input order entry

Sanitation/Patron Protection	Hair color	Chemical Hair Restructuring	Haircutting & Hair Treatments
Demonstrate an understanding and use of sanitation, safety, and universal precautions for both the cosmetologist and client.	Developing an understanding of the theory of the practices of hair color.	Developing an understanding of the theory of the practices of chemical texture straightening services.	Demonstrate an understanding of the principles of design and how these elements enhance the facial features and hair textures of the client
Demonstrate and abide by rules and regulations of Occupational Code Act 299 of 1980 and the Administrative Rules set forth by the State of MI.	Perform proper application of hair color while demonstrating an understanding of safety.	Perform proper application of chemical texture straightening services while demonstrating an understanding of safety.	Perform haircuts using various tools, angles/elevation and design concepts
Maintain a professional image.	Developing an understanding of the theory of the practices of hair lightening.	Developing an understanding of the theory of the practices of chemical texture permanent waving services.	Demonstrate proper use of thermal styling tools (i.e.. marcel iron, curling iron, pressing comb/iron) to manipulate dry hair.
Employ knowledge of electricity, how it works and the proper use of electrical appliances in the salon in order to provide safe, efficient services for clients.	Perform proper application of hair lighteners while demonstrating an understanding of safety.	Perform proper application of chemical texture permanent waving services while demonstrating an understanding of safety.	Demonstrate understanding of and employ procedures for scalp care, massage, and hair brushing.
Employ knowledge of the basics of chemistry, how it works and how it applies to the substances used.			Demonstrate knowledge of shampoo and conditioning products for client's hair and scalp; perform services in relation to those products.
Employ acquired knowledge of Applied Anatomy, Physiology, and Histology of the human head, hands, nails, skin and hair as it relates to each service area in order to provide a safe and efficient service for a client.			Understand structure and chemical composition of hair, how that impacts services, and recommend and provide hair treatments.
Facials and Skin Care	Hairdressing	Nail Care	Salon Management
Demonstrate an understanding of skin structure, analysis and care and how it applies to facial services.	Employ an understanding of the various types of hairdressing techniques and their proficient application in order to provide a safe, efficient hairdressing service with skill suitable for employment in the salon. <i>(Competencies repeated for dressing, artificial hair, natural hair cultivation, wet hair styling, and arranging.)</i>	Demonstrate an understanding of the basic tools and techniques in natural nail manicures and pedicures, including how these elements enhance the client's hands and feet and perform procedures.	Satisfactorily complete Practical Exam Preparation.
Demonstrate knowledge of skin care products and facial devices; perform services in relation to those products.	Demonstrate an understanding of the principles of design and how these elements enhance the facial features and hair textures of the client. <i>(Competencies repeated for dressing, artificial hair, natural hair cultivation, wet hair styling, and arranging.)</i>	Employ artificial nail techniques for extension and repair using a variety of products and tools that suit the client's nail shape and desired outcome.	Satisfactorily complete Theory Exam Preparation.
Demonstrate proper manipulation and massage techniques.			Employ business strategies, including small business management, laws and licensing, and accounting, that are necessary to successfully manage and/or own a business.
Demonstrate an understanding of the various methods of hair removal and the products used as well as how contraindications that affect the ability of clients to receive hair removal services.			Demonstrate an understanding of how a professional salon operates by applying a variety of techniques to increase income, promote yourself and building a loyal client base leading to successful employment.
Demonstrate an understanding of the various methods of facial makeup techniques to enhance the natural facial features of a client using color theory.			Suggested Implementation of Career Ready Practices.

Questions on Standards to Competencies ?

Cosmetology PCCs

Perkins Course Competencies (PCCs)

A specified group of competencies aligned with the state CTE program standards that take approximately 80 hours of instruction to deliver. The competencies are grouped as part of the career pathways grant process.

Competencies will be marked complete for a student when the student earns a grade of 2.0 or better in a local course section that covers those competencies.

PCC Course Letter	Course Name	Required Hours (Full License)	Required Hours (Specialty License)
A	Sanitation/Patron Protection	√	√
B	Haircutting & Hair Treatments	√	
C	Haircoloring	√	
D	Chemical Hair Restructuring	√	
E	Nails/Nail Care	√	√
F	Hairdressing	√	√
G	Facials/Skin Care	√	√
H	State Board Preparation & Salon Management	√	√

Course A (Sanitation) and Course H (Salon Management/State Board) is required of all licenses

All courses together = 1500 Full Cosmetology License

Any two courses of full license = Concentrator

Course A + H + Course G = Esthetician Limited License

Course A + H + Course F = Natural Hair Cultivation Limited License

Course A + H + Course E = Manicurist/Nail Technician Limited License

Competency Code	Perkins Course	Competencies	Cosmetology License	Current Segments
A1	A	Demonstrate an understanding and use of sanitation, safety, and universal precautions for both the cosmetologist and client.	Sanitation and Patron Protection	1 - Cosmetology Laws and Rules / Safety and Sanitation
A2		Demonstrate and abide by rules and regulations of Occupational Code Act 299 of 1980 and the Administrative Rules set forth by the State of MI.	Laws and Rules	
A3		Maintain a professional image.	Personal Hygiene	
A4		Employ knowledge of electricity, how it works and the proper use of electrical appliances in the salon in order to provide safe, efficient services for clients.	Mechanical and Electrical Equipment Safety	
A5		Employ knowledge of the basics of chemistry, how it works and how it applies to the substances used.	Applied Chemistry and OSHA	10 - Applied Chemistry
A6	H	Employ acquired knowledge of Applied Anatomy, Physiology, and Histology of the human head, hands, nails, skin and hair as it relates to each service area in order to provide a safe and efficient service for a client.	Applied Anatomy	9 - Applied Anatomy, Physiology, and Histology
H1		Satisfactorily complete Practical Exam Preparation.		12 - State Board Preparation
H2		Satisfactorily complete Theory Exam Preparation.		
H3		Employ business strategies, including small business management, laws and licensing, and accounting, that are necessary to successfully manage and/or own a business.		11 - Salon Management/Clinic
H4		Demonstrate an understanding of how a professional salon operates by applying a variety of techniques to increase income, promote yourself and building a loyal client base leading to successful employment.		
H5		Suggested Implementation of Career Ready Practices		

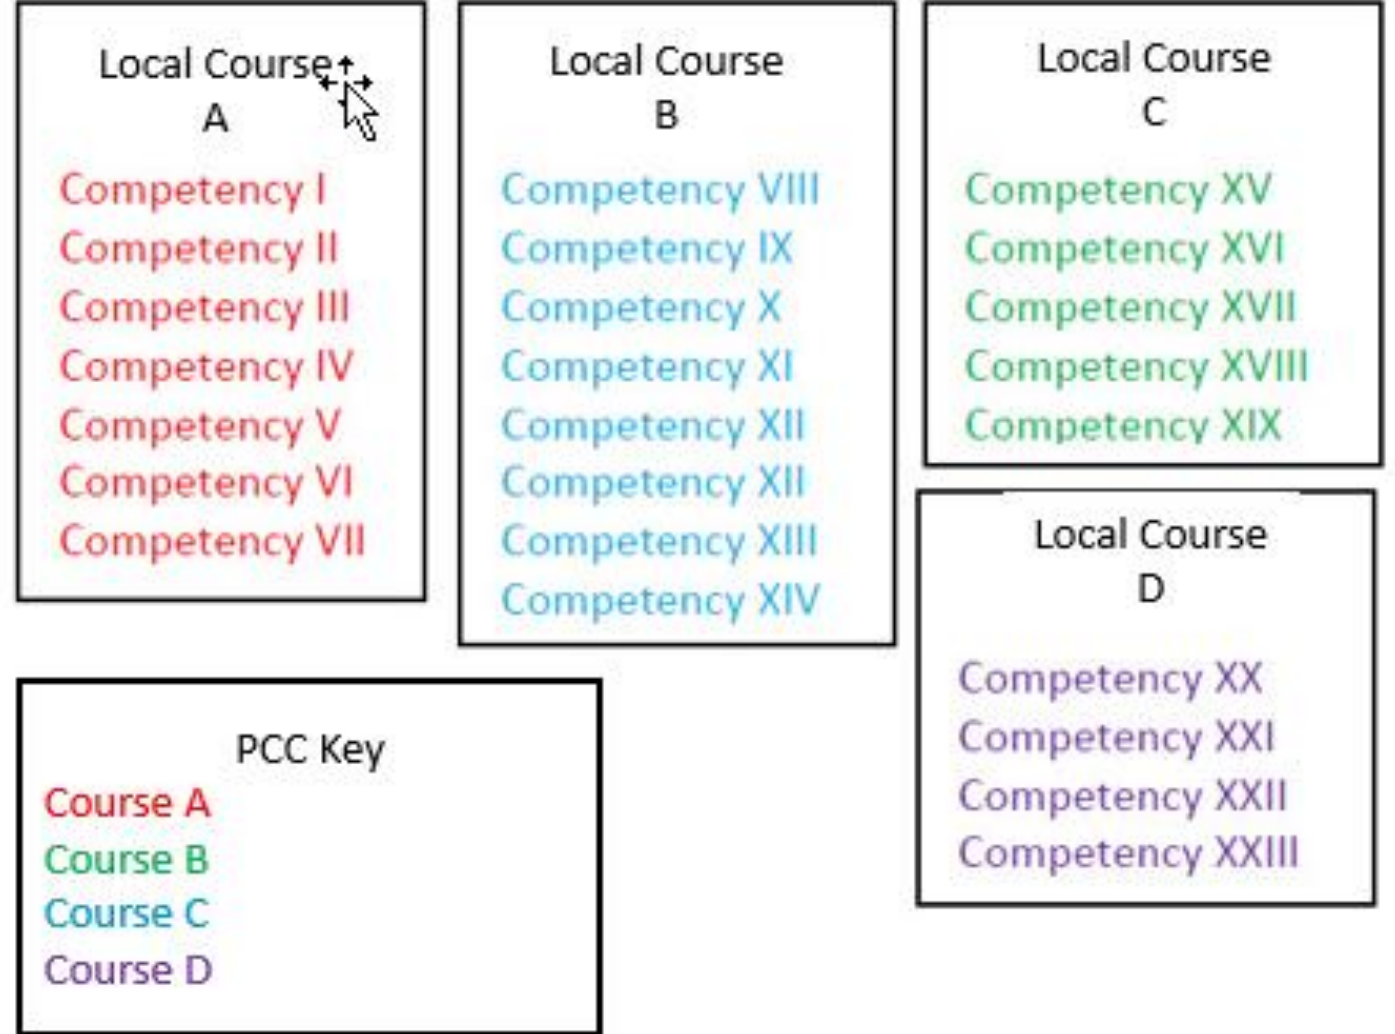

Competency Code	Perkins Course	Competencies	Cosmetology License	Current Segments
B1	B	Demonstrate an understanding of the principles of design and how these elements enhance the facial features and hair textures of the client	Haircutting	3 - Hairdressing / Leadership
B2		Perform haircuts using various tools, angles/elevation and design concepts.		
B3		Demonstrate proper use of thermal styling tools (ie. marcel iron, curling iron, pressing comb/iron) to manipulate dry hair.	Hairdressing Curling & pressing	3 - Hairdressing / Leadership
B4		Demonstrate understanding of and employ procedures for scalp care, massage, and hair brushing	Scalp and hair treatments	2 - Client Communications / Scalp and Hair Treatments
B5		Demonstrate knowledge of shampoo and conditioning products for client's hair and scalp; perform services in relation to those products		
B6		Understand structure and chemical composition of hair, how that impacts services, and recommend and provide hair treatments		
C1	C	Perform proper application of hair color while demonstrating an understanding of safety.	Temporary, semi-permanent, and permanent hair coloring	6 - Haircoloring
C2		Developing an understanding of the theory of the practices of hair color.		
C3		Perform proper application of hair lighteners while demonstrating an understanding of safety.	Bleaching and dimensional coloring, color mixing	6 - Haircoloring
C4		Developing an understanding of the theory of the practices of hair lightening.		
D1	D	Perform proper application of chemical texture straightening services while demonstrating an understanding of safety.	Chemical Hair Restructuring	5 - Chemical Hair Restructuring
D2		Developing an understanding of the theory of the practices of chemical texture straightening services.	Straightening and Relaxing	
D3		Perform proper application of chemical texture permanent waving services while demonstrating an understanding of safety.	Chemical Hair Restructuring	5 - Chemical Hair Restructuring
D4		Developing an understanding of the theory of the practices of chemical texture permanent waving services.	Permanent Waving	

Competency Code	Perkins Course	Competencies	Cosmetology License	Specialty License - Manicurist	Current Segments
E1	E	Demonstrate an understanding of the basic tools and techniques in natural nail manicures and pedicures, including how these elements enhance the client's hands and feet and perform procedures.	Manicuring and Pedicuring	Manicuring and Pedicuring Techniques	4 - Career Exploration / Manicure / Pedicure
E2		Employ artificial nail techniques for extension and repair using a variety of products and tools that suit the client's nail shape and desired outcome.	Artificial Nails	Artificial Nails, extensions, and repairs	8 - Artificial Nails
				Artistic Principles	

Competency Code	Perkins Course	Competencies	Cosmetology License	Specialty License - Natural Hair Culturist	Current Segments
F1	F	Employ an understanding of the various types of hairdressing techniques and their proficient application in order to provide a safe, efficient hairdressing service with skill suitable for employment in the salon. (Competencies repeated for dressing, artificial hair, natural hair cultivation, wet hair styling, and arranging.)	Hairdressing	Braiding Techniques and Extensions	3 - Hairdressing / Leadership
F2		Demonstrate an understanding of the principles of design and how these elements enhance the facial features and hair textures of the client. (Competencies repeated for dressing, artificial hair, natural hair cultivation, wet hair styling, and arranging.)	Arranging, dressing, artificial hair, finger waving, and natural hair cultivation	Artistic Principles	

Competency Code	Perkins Course	Competencies	Cosmetology License	Specialty License - Esthetician	Current Segments
G1	G	Demonstrate an understanding of skin structure, analysis and care and how it applies to facial services.	Skin Analysis and Care	Facials and skin care techniques	7 - Facials / Systems
G2		Demonstrate knowledge of skin care products and facial devices; perform services in relation to those products	Facials		
G3		Demonstrate proper manipulation and massage techniques.	Manipulation, massage, electricity		
G4		Demonstrate an understanding of the various methods of hair removal and the products used as well as how contraindications that affect the ability of clients to receive hair removal services.	Removal of hair by the use of wax, tweezers, or depilatories	Temporary removal of hair	
G5		Demonstrate an understanding of the various methods of facial makeup techniques to enhance the natural facial features of a client using color theory.	Makeup and eyebrow arch	Artistic principles and makeup

Program is not currently offering a credential	Teacher is not qualified to teach any of the approved credential options and cannot become qualified	<ul style="list-style-type: none"> Consult with advisory committee and postsecondary partners; review labor market data Review potential credentials and apply for an enhancement grant

Comprehensive Program of Study (POS)

Credential Readiness Survey

This survey will help to determine your readiness for the implementation of the credential for your specific CIP code that are being released as a part of the Career Pathways Grant. Please keep in mind, many of the listed CIP codes are already offering these credentials. MDE is collecting this information to prepare the necessary technical assistance for an effective roll-out.

The tentative roll-out includes:

Programs or clusters already offering the required credentials will continue to provide the credential. The change for these programs will include new instructional design and
